ABB ACS355-03E-05A6-4

2.2 kW / 5.6 A

2.2 kW three-phase machinery drive

01 / EXACT PRODUCT IDENTITY

Type: ACS355-03E-05A6-4
Supplied label reference: ACS355-03E-05A6-4
Family: ACS355

The complete code identifies a three-phase-input ACS355 drive in the 380-480 V class. Match the actual drive nameplate and motor ratings before ordering; control panels and application options are selected separately.

02 / Function and selection

ABB ACS355-03E-05A6-4 is a 2.2 kW, 5.6 A machinery drive for a three-phase 380-480 V AC supply. This R1-frame, IP20 drive controls induction or permanent-magnet synchronous motors, with control panels and communication options selected for the application.

For replacement: include the complete drive type code, motor voltage and current, installed control panel, fieldbus options and application settings.

03 / Supply and quotation

Condition: New
Supply scope: Drive only
Dispatch: Ready to ship; confirm quantity and destination.
Warranty: Amikon one-year supplier warranty under written terms.
Motor, external choke, control panel, communication options and other separately requested accessories are outside the drive-only supply.
