Siemens 39ACM24BEN

16139-215/1

Advanced Control Module Plus

01 / EXACT PRODUCT IDENTITY

Type: 39ACM24BEN
Supplied label reference: 16139-215/1
Family: APACS+

39ACM24BEN identifies the 68040 / 4 MB ACM+ model. The supplied unit separately carries 16139-215/1 as its part reference; ROM version and serial number are separate identification fields.

02 / Function and selection

Siemens 39ACM24BEN is a 4 MB ACM+ Advanced Control Module for APACS+ process control. It uses a 68040 processor, battery-backed SRAM and 1 MB operating-system flash, with serial and redundancy connections provided through a separate transition board.

For replacement: include the complete model and part number, ROM/software version, rack and transition-board references, node configuration and any redundant partner.

03 / Supply and quotation

Condition: New
Supply scope: Control module only
Dispatch: Ready to ship; confirm quantity and destination.
Warranty: Amikon one-year supplier warranty under written terms.
The listing covers the ACM+ control module. Transition board, rack, redundancy partner and separately requested cables are outside the module-only supply.

Technical reference: Siemens SD39ACM-3 Rev. 4, Sept 2005 (updated July 2009). Sections 1.1, 3.9 and 4.4. Supplier-prepared purchasing brief; separate from manufacturer documentation.
