1766-L32BXB

24V DC Class 2 SELV / relay + FET

32-point programmable controller

01 / EXACT PRODUCT IDENTITY

Type: 1766-L32BXB
Supplied label reference: 1766-L32BXB
Family: 1766 embedded control

The supplied photograph identifies 1766-L32BXB, Series B. Match the full catalog number, firmware and installed configuration. This model has mixed relay/FET outputs and no embedded analog channels; 1766-L32BXBA is a separate analog-equipped variant.

02 / Function and selection

1766-L32BXB is a 32-point controller with 24V DC Class 2 SELV, 12 fast 24V DC inputs and 8 standard 24V DC inputs and 6 relay outputs, 3 fast DC outputs and 3 standard DC outputs. Ethernet and two serial channels connect the controller to the installed control network.

For replacement: include the installed catalog number, series, application backup, supply voltage, field input/output types and communication requirements.

03 / Supply and quotation

Condition: New
Supply scope: Controller only
Dispatch: Ready to ship; confirm quantity and destination.
Warranty: Amikon one-year supplier warranty under written terms.
Controller-only supply. External I/O, communication cables, mounting rail and separately required accessories are quoted individually.

Technical reference: 1766-IN001E-EN-P · April 2017. printed pp. 8-10 / PDF pp. 6-8.
Supplier-prepared purchasing brief; separate from manufacturer documentation.
