ABB XU04

control-system module

control-system module

01 / EXACT PRODUCT IDENTITY

Type: XU04
Supplied label reference: XU04
Family: Legacy process control

Match the complete catalog reference and hardware series on the installed unit. Application files, settings and separately required components are independent selection checks.

02 / Function and selection

XU04 is offered as the identified replacement module. Match its complete label, installed revision and receiving assembly before ordering. Electrical configuration and application settings must be checked against the installed unit.

For replacement: include the complete product label, hardware series, receiving system, application requirements and separately required accessories.

03 / Supply and quotation

Condition: New
Supply scope: Module only
Dispatch: Ready to ship; confirm quantity and destination.
Warranty: Amikon one-year supplier warranty under written terms.
The listing covers the identified product only. Cables, mounting hardware and any separately required accessories are quoted individually.

Technical reference: ABB 3BUS095394 · Revision A. p. 8 · system evolution.
Supplier-prepared purchasing brief; separate from manufacturer documentation.
