GE IS200EISBH1A

Exciter ISBus Board

EX2100 Excitation Control | Board-only supply

01 / EXACT PRODUCT REFERENCE

IS200EISBH1A

Match the complete installed marking and revision with the offered-board photographs. Keep the exciter serial number and Material List number with the enquiry.

02 / Function and installation checks

Communication interface for EX2100 M1, M2 and C controllers. The board receives and transmits fiber-optic feedback through its backplane connection and supports DSPX communication with the toolbox and keypad ports using RS-232C.

Single-slot 3U module below DSPX. Match all six front optical ports, the backplane arrangement and the complete offered-board revision.

03 / Supply and quotation information
