VM600 MPC4 Machinery Protection Card

VM600 MPS | Product identification and purchasing

01 / EXACT PRODUCT IDENTITY

200-510-070-113
200-510-070-113
VM600 MPS

Match the complete card label and installed configuration. The manufacturer ordering format identifies 1Hh as the standard type; software and hardware versions must be checked separately.

02 / Function and configuration

Vibro-Meter 200-510-070-113 is a standard-version VM600 MPC4 machinery protection card. It processes four dynamic signal inputs and two speed channels, working with a matching IOC4T rear input/output card.

For replacement: include both card labels, VM600 rack, sensor types, hardware generations and installed MPS configuration.

03 / Supply and quotation information

Condition: New | **Supply:** MPC4 front card only
Dispatch: Ready to ship; confirm quantity and destination.
Warranty: Amikon one-year supplier warranty under written terms.
Rear IOC4T card, rack, sensors and additional connection accessories are outside the front-card supply.

Include the complete model, quantity, destination, required delivery date and installed label photographs.
