Yokogawa AAI141-S00

16-Channel Analog Input Module

CENTUM FIO | Product identification and purchasing

01 / EXACT PRODUCT IDENTITY

AAI141-S00
AAI141-S00
CENTUM FIO

Match the complete model, suffix and style on the supplied label. The suffix table separates standard and HART functions; a similar housing does not establish the same isolation or communication capability.

02 / Function and configuration

Yokogawa AAI141-S00 is a 16-channel, non-isolated 4–20 mA analog input module for CENTUM FIO. The S00 code selects the standard function and basic type; the supplied module photographs show style S2.

For replacement: include the complete model, style, receiving node, terminal reference and transmitter wiring configuration.

03 / Supply and quotation information

Condition: New | **Supply:** Input module only
Dispatch: Ready to ship; confirm quantity and destination.
Warranty: Amikon one-year supplier warranty under written terms.
Field terminals, cables, barriers and separately required system accessories are outside the input-module supply.

Include the complete model, quantity, destination, required delivery date and installed label photographs.
