Woodward 5417-040

NETCON 10 ft Discrete Cable

NETCON / MicroNet | Product identification and purchasing

01 / EXACT PRODUCT IDENTITY

5417-040
5417-040
NETCON / MicroNet

Use the complete cable part number and installed connector arrangement. The physical label is the primary identification point on the supplied assembly.

02 / Function and configuration

Woodward 5417-040 is a 10 ft NETCON discrete cable. The original component table identifies the grey cable with backshell tape; it is a cable assembly rather than an electronic I/O module.

For replacement: include the full cable label, both receiving interfaces, route length and connector photographs.

03 / Supply and quotation information

Condition: New | **Supply:** Cable assembly only
Dispatch: Ready to ship; confirm quantity and destination.
Warranty: Amikon one-year supplier warranty under written terms.
Receiving I/O modules, terminal assemblies and other separately required installation items are outside the cable supply.

Include the complete model, quantity, destination, required delivery date and installed label photographs.

Technical reference: Woodward JA26167V2, Revision N.
original p. 149, component table.
Supplier-prepared purchasing summary; separate from manufacturer documentation.
