01 / EXACT PRODUCT IDENTITY

171CCS78000
171CCS78000
Modicon Momentum

Match the full 171CCS78000 reference on the housing label and the installed I/O base. Retain the application and executive version before replacing the processor adapter.

02 / Function and configuration

Schneider Electric 171CCS78000 is a Modicon Momentum M1 processor adapter with 64 K RAM, 256 K flash memory and two Modbus ports: one RS232C and one RS485. The catalog identifies a 20 MHz processor and 984 ladder-logic configuration.

For replacement: include the I/O base, executive version, application backup, option adapter and communication configuration.

03 / Supply and quotation information

Condition: New | **Supply:** Processor adapter only
Dispatch: Ready to ship; confirm quantity and destination.
Warranty: Amikon one-year supplier warranty under written terms.
The receiving I/O base, option adapter, separate cables and software are outside the processor-adapter supply.

Include the complete model, quantity, destination, required delivery date and installed label photographs.
