Woodward 9907-164

505 Low-Voltage DC Digital Governor

505 Steam Turbine Control | Product identification and purchasing

01 / EXACT PRODUCT IDENTITY

9907-164
9907-164
505 Steam Turbine Control

Match 9907-164 and the actual unit revision on the side label. The offered revision, actuator settings and application configuration must match the installation.

02 / Function and configuration

Woodward 9907-164 is the low-voltage DC version of the 505 digital governor for steam turbines with single or split-range actuators. Its specified supply is 18–32 V DC, distinct from the AC and high-voltage DC variants.

For replacement: include the side label, supply voltage, actuator arrangement, turbine application and installed configuration.

03 / Supply and quotation information

Condition: New | **Supply:** Governor only
Dispatch: Ready to ship; confirm quantity and destination.
Warranty: Amikon one-year supplier warranty under written terms.
Mounting box, external actuators, field wiring and separately required installation accessories are outside the governor supply.

Include the complete model, quantity, destination, required delivery date and installed label photographs.
