2198-D006-ERS3

dual-axis servo inverter

dual-axis servo inverter

01 / EXACT PRODUCT IDENTITY

Type: 2198-D006-ERS3
Supplied label reference: 2198-D006-ERS3
Family: 2198 shared-bus motion

Match the complete catalog reference and hardware series on the installed unit. Application files, settings and separately required components are independent selection checks.

02 / Function and selection

2198-D006-ERS3 is a dual-axis servo inverter rated 2.5 A RMS continuous output per axis. It operates in a shared DC-bus motion system and requires the appropriate bus supply and control-power arrangement.

For replacement: include the complete product label, hardware series, receiving system, application requirements and separately required accessories.

03 / Supply and quotation

Condition: New
Supply scope: Drive only
Dispatch: Ready to ship; confirm quantity and destination.
Warranty: BESTWELL one-year supplier warranty under written terms.
The listing covers the identified product only. Cables, mounting hardware and any separately required accessories are quoted individually.

Technical reference: KNX-TD003M-EN-P · September 2024. pp. 10-14.
Supplier-prepared purchasing brief; separate from manufacturer documentation.
