330730-080-11-05

8 m Armored FluidLoc Extension Cable

Product identity, configuration and supply scope

01 / EXACT PRODUCT IDENTITY

330730-080-11-05

080 selects 8.0 m (26.2 ft). Connector/cable code 11 selects armored fluidloc cable. Approval code 05 selects multiple approvals; verify the actual markings.

02 / Function and configuration

Bently Nevada 330730-080-11-05 is an 8.0 m armored fluidloc cable for the 3300 XL 11 mm proximity transducer system. Cable code 11 and approval code 05 define this configuration. Pair it with the correct probe length and calibrated Proximitor system length.

For replacement: include 330730-080-11-05, installed 11 mm probe reference and length, Proximitor calibrated system length, routing, cable protection and actual approval requirements.

03 / Supply and quotation information

Condition: New | **Supply:** Extension cable only
Dispatch: Ready to ship; confirm quantity and destination.
Warranty: BESTWELL one-year supplier warranty under written terms.
The listing covers the extension cable. Probe, Proximitor sensor, monitoring equipment and additional installation accessories are separate items.

Technical reference: Bently Nevada / Baker Hughes · 146256 Rev. T.
