5069-OW16

Series A

16-point Form A relay output module

01 / EXACT PRODUCT IDENTITY

Type: 5069-OW16
Supplied label reference: 5069-OW16
Family: 5069 relay I/O

Read the catalog number and series from the module label, then match the channel grouping, load power and removable terminal block arrangement to the installed system.

02 / Function and selection

5069-OW16 provides 16 normally open relay outputs in two groups of eight. The photographed module is Series A, which requires DC SA power as well as MOD power. Select load voltage and current using the documented relay ratings.

For replacement: include the hardware series, load voltage and type, current per channel and group, SA supply arrangement and terminal-block reference.

03 / Supply and quotation
