Emerson KJ2002X1-CA1

M5 Plus Controller

DeltaV | Module identification and purchasing

01 / EXACT PRODUCT IDENTITY

KJ2002X1-CA1
12P1509X102
DeltaV

Match both identifiers on the controller label. The photographed unit is marked CONTROLLER M5+ and Rev. K; record the revision of the actual installed unit.

02 / Function and configuration

Emerson KJ2002X1-CA1 12P1509X102 is a DeltaV controller identified as CONTROLLER M5+ on the unit label. It belongs to the controller position of the DeltaV system, separate from the power supply, carrier and field I/O interfaces.

For replacement: include the controller label, installed revision, carrier reference and DeltaV system configuration.

03 / Supply and quotation information

Condition: New | **Supply:** Controller only
Dispatch: Ready to ship; confirm quantity and destination.
Warranty: Amikon one-year supplier warranty under written terms.
Carrier, system power supply, I/O modules and other accessories are outside the controller-only supply.

Include the complete model, quantity, destination, required delivery date and installed label photographs.
