# ICS Triplex TC-501-02-4M5

Trusted I/O SmartSlot Cable

Trusted | Module identification and purchasing

### 01 / EXACT PRODUCT IDENTITY

TC-501-02-4M5

Trusted

Match the full TC-501-02-4M5 label. Cable family, material code and length are all needed; a matching connector alone does not establish the same input-to-FTA arrangement.

## 02 / Function and configuration

ICS Triplex TC-501-02-4M5 is a 4.5 m Trusted I/O SmartSlot V2 cable for internal 40-channel input-to-FTA connections. The 02 construction uses low-smoke zero-halogen cable; match the input module, field termination assembly and SmartSlot arrangement before ordering.

For replacement: include the full cable label, input-module and FTA references, routing length and installed SmartSlot arrangement.

## 03 / Supply and quotation information

**Condition:** New | **Supply:** Cable assembly only
**Dispatch:** Ready to ship; confirm quantity and destination.
**Warranty:** Amikon one-year supplier warranty under written terms.
Input modules, field termination assemblies and additional system accessories are outside the cable-assembly supply.

Include the complete model, quantity, destination, required delivery date and installed label photographs.
