Emerson KJ3001X1-BB1

8-Channel 24 VDC Dry Contact Input Card

DeltaV | Module identification and purchasing

01 / EXACT PRODUCT IDENTITY

KJ3001X1-BB1
12P0550X132 VE4001S2T2
DeltaV

The supplied unit label shows KJ3001X1-BB1 and 12P0550X132. Include the VE4001S2T2 ordering reference and identify the installed terminal block separately.

02 / Function and configuration

Emerson KJ3001X1-BB1 12P0550X132 VE4001S2T2 is a DeltaV eight-channel, 24 VDC dry-contact discrete input card. It connects field contact signals to the DeltaV I/O system through a separately matched terminal-block arrangement.

For replacement: include the full card label, terminal-block reference, key position and installed field-circuit details.

03 / Supply and quotation information

Condition: New | **Supply:** Input card only
Dispatch: Ready to ship; confirm quantity and destination.
Warranty: Amikon one-year supplier warranty under written terms.
Terminal block, carrier, field wiring and other accessories are outside the input-card-only supply.

Include the complete model, quantity, destination, required delivery date and installed label photographs.
