Triconex 3000510-180

Digital Input External Termination Assembly

Tricon | Product identification and purchasing

01 / EXACT PRODUCT IDENTITY

3000510-180

Tricon

Use the ETA number 3000510-180 together with panel model 9561-810. The panel model and interface cable are separately identified in the original cross-reference.

02 / Function and configuration

Triconex 3000510-180 is the external termination assembly cross-referenced to model 9561-810. The documented arrangement is a 115 V commoned digital-input panel with 16 input points, individual fuses and blown-fuse indicators.

For replacement: include ETA 3000510-180, panel model 9561-810, module type, AC/DC field supply and interface-cable reference.

03 / Supply and quotation information

Condition: New | **Supply:** Termination assembly only
Dispatch: Ready to ship; confirm quantity and destination.
Warranty: Amikon one-year supplier warranty under written terms.
Input modules, interface cable, field power supply and other accessories are outside the termination-assembly supply.

Include the complete model, quantity, destination, required delivery date and installed label photographs.
