Triconex 4000103-510

Tricon Signal Interface Cable

Tricon | Product identification and purchasing

01 / EXACT PRODUCT IDENTITY

4000103-510

Tricon

The supplied cable label reads 4000103-510 and ANALOG. Include the actual installed revision and length marking; the manufacturer cross-reference must also match the termination panel and ETA.

02 / Function and configuration

Triconex 4000103-510 is an interface cable listed for several Tricon external termination arrangements. Match the cable number to the exact termination-panel and ETA cross-reference; a shared connector does not establish the same field-input function.

For replacement: include the complete cable label and revision, installed length, panel and ETA references, connector keying and required routing.

03 / Supply and quotation information

Condition: New | **Supply:** Cable assembly only
Dispatch: Ready to ship; confirm quantity and destination.
Warranty: Amikon one-year supplier warranty under written terms.
Termination panels, ETAs, I/O modules and additional system accessories are outside the cable-assembly supply.

Include the complete model, quantity, destination, required delivery date and installed label photographs.
