HIMA F7131

Power Supply Monitoring Module

PES H51q | Product identification and purchasing

01 / EXACT PRODUCT IDENTITY

F7131

PES H51q

The supplied label shows F7131 and 981713102. Match the actual assembly status, battery arrangement and H51q installation, keeping the monitoring module distinct from the separate power-supply modules.

02 / Function and configuration

HIMA F7131 monitors the 5 V system supply generated by up to three power-supply modules in PES H51q. It provides front LED indication, diagnostic test bits and buffer-battery support.

For replacement: include the F7131 label, assembly status, H51q rack and power-supply arrangement, fitted battery and connection style.

03 / Supply and quotation information

Condition: New | **Supply:** Monitoring module only
Dispatch: Ready to ship; confirm quantity and destination.
Warranty: Amikon one-year supplier warranty under written terms.
Power-supply modules, rack, additional supply assembly and separately requested batteries are outside the monitoring-module supply.

Include the complete model, quantity, destination, required delivery date and installed label photographs.
