1769-L30

256 KB

Dual RS-232 processor module

01 / EXACT PRODUCT IDENTITY

Type: 1769-L30
Supplied label reference: 1769-L30
Family: 1769 modular control

The unit label identifies 1769-L30, Series A and revision information. Record the full installed label and the serial-channel configuration, rather than matching only the L30 characters.

02 / Function and selection

1769-L30 is a modular controller with 256 KB user memory and two RS-232 communication ports. It supports up to 16 I/O modules across three banks and requires a correctly arranged 1769 power supply and bus termination.

For replacement: include the series, revision, application backup, both serial-channel settings, I/O bank layout and power supply reference.

03 / Supply and quotation

Condition: New
Supply scope: Controller only
Dispatch: Ready to ship; confirm quantity and destination.
Warranty: BESTWELL one-year supplier warranty under written terms.
Controller-only supply. Power supply, I/O modules, serial cables, battery replacements and other accessories are separately specified.

Technical reference: 1769-IN047B-EN-P · June 2001. pp. 5, 7, 13-18.
Supplier-prepared purchasing brief; separate from manufacturer documentation.
